Cool Springs Press, United States, 2015. Paperback. Condition: New. 3rd edition. Language: English . Brand New Book. You don't need to be an expert to assess your house's codes - you just need this guide. What is the proper clearance for an egress window? Does flexible duct have to be supported every four feet or five? Can vent pipe terminations be located near operable doors and windows? The difference between a code-compliant fixture and an egregious violation is often smaller than you think. You may have friends, family, or neighbors who claim to know, but how can you be sure? Is it worth taking their advice against future violations, fees, and fixes? The completely updated Codes for Homeowners is here to help. Written by International Residential Codes-certified home inspector Bruce Barker, this third edition of Codes for Homeowners is current with most national codes in force for the period of 2015 through 2017. Based on his decades of experience, Inspector Bruce Barker has winnowed down the massive heap of codes in force to only those that a single-family homeowner is likely to encounter. Building codes, electrical codes, plumbing codes, and mechanical (HVAC) codes are shown and described in everyday, easy-to-understand language. This third edition includes all of the great information in the first version but is updated to reflect any changes to codes, including the 2014 National Electrical Code, the 2015 Universal Plumbing Code, and the 2015 International Residential Code.
