The timing of the voids development could not be determined with reasonable certainty. The CSX tunnel inspection procedures and documentation were neither thorough nor detailed. On July 23, 2001, a team of about 25 people who were, according to CSX, mostly engineers, entered the Howard Street Tunnel to perform an inspection to determine the tunnels structural integrity. The team included engineers from CSX and representatives of the city of Baltimore, the Maryland Transit Administration, and other organizations. The team split into smaller groups to examine the sides and ceiling of the tunnel. A lift truck was used to allow close inspection of the tunnel ceiling. After the inspection, CSX determined that the tunnel was structurally sound. A follow-up inspection was performed on August 27, 2001. Again, no structural problems were found. On July 28, 2001, CSX had an engineering firm conduct two soil borings at the intersection of Lombard and Howard Streets near the 40-inch
