Introduction to Programming

By Rizwan Qureshi

LAP Lambert Academic Publishing. Paperback. Condition: New. 184 pages. Dimensions: 8.7in. x 5.9in. x 0.4in. The inspiration to write this book is to design such a text to learn programming for the computer science and IT students using common language and daily life examples. The main strength of this book is that it provides a complete guideline to learn programming by solving the same example using four popular languages i. e. , C, C, Java and C. Net. First chapter starts with the general understanding and concepts about fundamentals of programming. 2nd chapter introduces the reader about the programming environments of C, C, Java and C. Chapters 3, 4 and 5 cover sequence, selection and repetition control structures. Function programming is introduced in chapter 6. 7th chapter explains the Object Oriented Programming using C and Java. 8th chapter covers the details of web programming using HTML. 9th chapter provides the details about database programming using Java and C. Graphics programming is illustrated in Chapter 10 using Swing, Applets and Frames. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
