

Anthropogenic Geomorphology: A Guide to Man-Made Landforms

By -

Springer. Hardcover. Book Condition: New. Hardcover. 250 pages. Dimensions: 9.2in. x 6.1in. x 0.9in. Anthropogenic geomorphology studies society's impact on the geographical environment, and especially on the Earth's surface. This volume provides guidance to students discussing the basic topics of anthropogenic geomorphology. The chapters cover both its system, and its connections with other sciences, as well as the way the subject can contribute to tackling today's practical problems. The book represents all fields of geomorphology, giving an introduction to the diversity of the discipline through examples taken from a range of contexts and periods, and focusing on examples from Europe. It is no accident that anthropogenic geomorphology has been gaining ground within geomorphology itself. Its results advance not only the theoretical development of the science but can be applied directly to social and economic issues. Worldwide, anthropogenic geomorphology is an integral and expanding part of earth sciences curricula in higher education, making this a timely and relevant text. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Hardcover.

Reviews

Merely no words to spell out. It is amongst the most awesome publication I have read. Your life span will likely be transformed as soon as you finish reading this book.

-- **Marvin Okuneva**

Completely among the best publications I have got at any time go through. I have got go through and so I am confident that I will likely read again once more down the road. It is extremely difficult to leave it before concluding, once you begin to read the book.
