By Keith Law

William Morrow Company, 2018. Paperback. Condition: New. Reprint. Language: English . Brand New Book. Predictably Irrational meets Moneyball in ESPN veteran writer and statistical analyst Keith Law s iconoclastic look at the numbers game of baseball, proving why some of the most trusted stats are surprisingly wrong, explaining what numbers actually work, and exploring what the rise of Big Data means for the future of the sport. For decades, statistics such as batting average, saves recorded, and pitching won-lost records have been used to measure individual players and teams potential and success. But in the past fifteen years, a revolutionary new standard of measurement--sabermetrics--has been embraced by front offices in Major League Baseball and among fantasy baseball enthusiasts. But while sabermetrics is recognized as being smarter and more accurate, traditionalists, including journalists, fans, and managers, stubbornly believe that the old way--a combination of outdated numbers and gut instinct--is still the best way. Baseball, they argue, should be run by people, not by numbers.? In this informative and provocative book, teh renowned ESPN analyst and senior baseball writer demolishes a century s worth of accepted wisdom, making the definitive case against the long-established view. Armed with concrete examples from different eras...
