Reviews

This ebook will never be effortless to get started on studying but extremely fun to read through. It is actually written in easy phrases and never difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from A Method of English, Vol. 1: For Secondary Schools This little book professes to be, not an English Grammar, but a course of English Lessons for the junior forms of Secondary Schools. It contains, indeed, all the grammar that is of any importance, but it contains other things too, and is written with a certain definite intention. It is intended for children who already Speak and write English fairly well, and who are beginning to learn another lan guage. Now, it is notorious that such children are apt to pre sume on their knowledge, and to neglect and despise the English lesson. Yet they cannot follow a long sentence, or understand poetical diction, and when they come to the syntax of a foreign language they blunder sadly from mere ignorance of the functions of words in their own language. Who, for instance, has ever taught the use of prepositions with the infinitive in French, or of at with the subjunctive in Latin, without finding that he had to give a lesson in English grammar as well? In truth, the higher work of schools is perpetually hampered by the neglect of English in the lower classes. It is often said, and is sometimes true, that, sooner or later, pupils learn English grammar through Latin, but many of them learn neither, and the process is in any case unreasonable.
