

Utopia: Utopian Economics (Paperback)

By Travis Wayne Goodsell

Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.My theory can be mistaken for a Communist Economic system because there is a central marketplace run by the religious organization. (see my book, Utopia: Religion of High Priests, as part of my Complete Utopia series) But there is not an equal division of goods. Rather people receive according to their needs and wants. There is no monetary exchange for goods. The economy is based upon a labor force that works for the purpose of building the Complex Center (Central Marketplace). Instead of forced labor, everyone chooses their profession. Humans are so diverse, such that there will be a diversity of goods and services. An unlikely lack in one area of the basic necessities is easily remedied by a voluntary workforce, who temporarily stops work on their regular job to help fill up the supply of the basic necessity that is in short supply. Then once resupplied, the people return to what they enjoy. The Complex Centers are designed to have one World headquarters, one headquarters for every nation in the world, one headquarters for every State/Province, one headquarters for...
