Each child's growth process. is a constantly enhance the ability of social survival and personal development process. In infancy. the first need to develop self-cognitive abilities. so that the child be able to distinguish between themselves and others. Followed by the independence and self-control abilities. including the two aspects of the physical and psychological independence and self-control. Larger. you can cultivate the child's ability to resist setback and self-motivation. To preschool. it is necessary to gradually develop a child's self-confidence. love. responsibility and sense of gratitude. integrity awareness. Although these various names. but they can be summarized into two words: emotional intelligence. The child's emotional intelligence is mature or not. is reflected in whether he can show his age-appropriate emotional control ability and social skills. which is the most important ability in the child said to the community. but also whether a person really grow and mature metrics. However. how to foster the children's emotional intelligence is still a problem in front of their parents. In fact. the culture of EQ is not advanced. it is hidden in our daily lives. Child's daily activities is just a game. the game...
